PLANET 21

Novotel is part of AccorHotels, who have been committed to redefining boundaries for many years. The Planet 21 programme demonstrates the Group's ambitious goals for 2020, based around four strategic priorities: involve its customers, work with local communities, work with its employees and innovate with its partners. Two key issues to tackle will be food and buildings.

Plant for the planet

We ask our customers to reuse their towels. Savings made on water and energy are used to fund tree planting. One tree is planted every minute.

The fight against the sexual exploitation of children

For many years, all of AccorHotels' brands have been committed to the fight against the sexual exploitation of children. Our teams are devoted to fighting against this evil and encourage their customers to do the same.

Eco design

Novotel offers eco-designed beds made from wood sourced from sustainably-managed forests (FSC certified), as well as bedspreads and pillowcases made from recycled bottles.

Eco-certified soap, shower gel and shampoo is available in our rooms. Also, environmentally friendly, eco-certified cleaning products.

Healthy and sustainable food

The group is committed to offering healthy, balanced and high-quality food. We use products grown in our kitchen gardens, local products, etc. We are also committed to reducing food waste and banning the use of overfished species in our restaurants.
