Life is Magnifique in Biarritz

BIARRITZ, A CITY ON THE OCEAN

A top destination, forever marked by the visit of Napoleon III and other leading international figures, Biarritz has always been one of France's most welcoming towns.

The Empress Eugénie de Montijo is to thank for transforming this little whaling port into a fashionable seaside resort in the 19th century. Over the years it has managed to absorb all kinds of influences without ever compromising itself.

In its architecture too, Biarritz has opened itself up to the most eclectic of styles (Art-Deco, Belle Époque, Neo-Basque). Its hundreds of villas tell the story of a town which holds the promotion of its heritage and living environment particularly dear. In 1888, under the impetus of the British colony, the second oldest golf course on the continent opened in Biarritz.

Today, there are around ten courses scattered throughout the region.

Blessed with wide beaches, powerful waves and a mild climate all year round, it was only natural that Biarritz welcomed the first surfers on the European continent in 1957, in the process becoming the historical surf capital of Europe.

Imbued with a cultural richness which opened it to the world and the authentic nature of the Basque Country, situated between sea and mountain and just a stone's throw from Spain, Biarritz offers all of its guests a royal welcome.

SOFITEL BIARRITZ LE MIRAMAR THALASSA SEA & SPA

Located on the Basque coast, this luxury hotel and thalassotherapy institute is one of Biarritz's must-stay venues.

Close to the golf course and only five minutes' walk from the town centre, the 5-star Sofitel Biarritz Le Miramar Thalassa sea & spa offers direct access to Miramar beach. A breathtaking view and a truly enchanting setting.

Relax and enjoy the idyllic setting. Savour a seafood dish from our gastronomic menu or an inspired, delicious low-calorie dish.

This upscale hotel prides itself on its impeccable service.
