

SO SPA WITH L'OCCITANE AT SOFITEL MACAU AT PONTE 16

A Journey of Exploration

PROVIDING A WORLD apart with its organic curves, natural materials and muted colours, the newly opened So SPA with L'Occitane at Sofitel Macau at Ponte 16 offers a warm and serene environment.

The spa's signature So Exhilarating Massage, performed on So SPA's equivalent of MyBed that matches the brand's in-room standards, is the perfect remedy to mid-winter blues, dry skin and general stiffness.

The treatment begins with deep, refreshing breathing, then prepare to feel your spirits lift with the soothing scent of lavender as the journey of exploration commences. You'll be surprised as a drop of honey touches your lips, before the therapist turns the covering sheet into a cocoon to gently rock you to and fro, inducing a novel, yet liberating feeling.

Employing light, subtle, elegant strokes, the deft and intuitive therapist uses argan oil and combines Swedish and lomi lomi movements in the massage. With a hot stone gliding along your spine and more rocking from the back to the legs, the treatment concludes as the therapist performs gentle tapping on your back by way of closing the joint adventure.

Furthermore, at So SPA with L'Occitane, you can also indulge in the delights of the unique hammam on a crisp spring day. You'll leave with a new sense of well-being; your skin will feel smoother than it has in a long time, and your joints will have an unaccustomed suppleness.
