

THE CUISINE

Lotus Court aims at redefining the idea of going out for Chinese food. Lotus Court offers appetising authentic Chinese cuisine, with a menu that truly sets this restaurant apart. Lotus Court offers a variety of traditional Chinese fare, making each entrée seem like something new and special. The menu items and atmosphere help to create a high-value experience for customers, differentiating Lotus Court from what people often picture when they think of a typical Chinese restaurant.

INTERIOR AND DESIGN

The restaurant design pays tribute to the emotional aspects of the venue, considering important elements such as the aura of each space, the emotion it provokes and nurtures, and the logistics behind its aesthetics, functions and form. Furthermore, the unique feel is achieved by employing the Chinese art of Feng Shui, and tuning the layout and design in harmony with the social dynamics within the space, all of which involved careful consideration of how people would interact with the designed environment.

The kitchen can be seen through a transparent glass surrounding the dining area. This concept allows activity in the kitchen to be part of the whole dining experience, with diners treated to a live show on how their food is prepared. Hanging overhead are custom-made contemporary Chinese chandeliers and accents, which help create a marriage between traditional oriental culture and the contemporary atmosphere.

The two private dining rooms are separated by vertical pinewood shutters, with the walls of each room adorned with hand-carved ornaments depicting Chinese scenery. The mood-enhancing set-up is made more sophisticated by strategic seating dimensions and spacing between tables, and the infusion of local design elements.
